

CASE STUDY

INDUSTRIAL CLEANING

THE FASTEST GROWING INDUSTRIAL SERVICES ORGANIZATION IN NORTH AMERICA

INDUSTRIAL SERVICES

We have the expertise and resources to meet a full range of industrial services challenges.

ENVIRONMENTAL SERVICES

We work closely with our customers to develop custom solutions to environmental challenges.

WASTE REDUCTION & RECYCLING

We are industry leaders in managing hazardous and non-hazardous waste across North America.

ROBOTIC SERVICES

We are leaders in leveraging advanced technologies to provide innovative, cost-saving, and safer solutions.

PROJECT MANAGEMENT

We are among the most experienced in the industry in providing full-service project management programs

PUT THE BEST LOCAL EXPERTISE FROM COAST TO COAST TO WORK FOR YOUR ORGANIZATION

SITUATION

BC Master Blasters (BCMB) was approached by a client in the pulp and paper industry to provide cleaning for their pre-steaming chip bin. Previously, this job had required manual entry during shutdown maintenance periods and took almost 48 hours to complete at a cost of over \$15,000.

COST SAVING SERVICES

BCMB developed a new and innovative non-entry cleaning procedure for the pre-steaming chip bin. Keeping the vessel online so the rotary feeder could empty the bin prior to lockout allowed the mill to reclaim the chips and reduce cleaning needs substantially.

THE RESULTS

Project completion time was reduced by 75% to 12 hours and project costs were reduced by 89% to only \$1,700.

HIGHLIGHT

89%

reduction in cost as a result of new non-entry cleaning procedure
